DID YOU KNOW?

Batteries: everyone uses them, but do you know what to do with them when they run out of "juice"?

In 2006, California banned batteries from landfills because they contain small amounts of heavy metals and other corrosive materials that, when leaked, could lead to soil and groundwater contamination. Fortunately, the metals and other materials in the battery can be recycled into new products, such as golf clubs or more batteries. In 2014 Tehama County residents recycled more than 10,500 pounds of alkaline and rechargeable batteries.

While managing the County's battery recycling programs is expensive, it helps protect our soil and groundwater health for future generations. Each year, approximately 75% of the batteries recycled in Tehama County are alkaline or single-use batteries, while the remaining are rechargeable batteries. Because the cost of recycling the rechargeable batteries is covered by the manufacturers of those batteries, it saves our County thousands of dollars in recycling costs each year. Think of all the money that could be saved if more residents chose to use rechargeable batteries instead of single-use batteries.

For more information regarding free battery recycling options for Tehama County residents and businesses, please call (530) 528-1103 or visit www.tehamacountylandfill.com and select "toxics".

Above: A landfilled alkaline battery that has corroded and released its contents.

BEVERAGE CONTAINER RECYCLING... DONE RIGHT

No matter how you recycle, the County thanks you for your efforts. Here's a tip to maximize your recycling effort the next time you finish a refreshing, cold beverage:

- Take your aluminum, glass and plastic beverage containers to your local recycling center for a **cash refund** (5 ¢ for containers less than 24 oz. and 10 ¢ for containers 24 oz. or larger).
- Toss your rinsed beverage containers into your **blue curbside recycling cart** with your other recyclables.

No matter what, you'll be conserving precious resources. For more information on beverage containers eligible for a cash refund, please visit www.calrecycle.ca.gov/bevcontainer/.

Questions?

Please call the Tehama County Solid Waste Management Agency at 528-1103, visit <http://www.tehamacountylandfill.com> or email us at tehamacountyrecycles@co.tehama.ca.us.

As always, please **do not forget to recycle!**
It's good for the County and good for the wallet.
