See [Upcoming Events](#) for the full 2013 calendar of collection events.

Be Patriotic, Recycle!

There are many economic and environmental benefits to recycling. The energy cost to recycle items is less than producing items using raw materials. Show your American pride by recycling!

Celebrate the 4th of July with the 4Rs:

Reduce

- Most plastic packaging material is not recyclable. Select minimally packaged products, or packaging that is recyclable, such as cardboard, paperboard, aluminum cans, foil, glass plastic containers #1-7. Wipe or rinse free of food residue.
- Packaging is one of the largest material types filling up the Tehama County Landfill

Reuse

- If each person in the US were to reuse a paper shopping bag for just one trip to the store, we would save 60,000 trees. Imagine how many trees would be saved if we all used reusable cloth grocery bags instead!

Recycle

- Save landfill space
- Conserve the world's resources
- Conserve energy supplies
- Limit greenhouse gas emissions

Rebuy

- Buy recycled! Purchase products made of recycled content material usually ranging from 30% - 100% of the product is actually from recycled material.

For more waste reduction, reuse and recycling information, please visit www.tehamacountylandfill.com or contact the Tehama County Sanitary Landfill Agency at 528-1103.
