### **Treated wood waste now accepted at the Tehama County/Red Bluff Landfill**

The Tehama County/Red Bluff Landfill is now accepting treated wood waste, such as pressure treated wood, from Tehama County residents and businesses at a rate of \$136.25 per ton (minimum fee of \$2.73 for up to 40 lbs.). Treated wood waste must be self-hauled to the landfill, not placed in residential or commercial garbage service containers for pickup. When bringing your treated wood waste to the landfill, please remember to segregate the wood from the rest of your load and inform the scale house attendant that you will be dropping off treated wood waste. If you have any questions or concerns, please contact the Tehama County/Red Bluff Landfill at (530) 528-1102.
