Inspection Number	: DA0008040	Result	: 01 - Meets Standards
Purpose of Inspection	: 106 - Pre-Opening Inspection		

### Inspection Violations

No violations cited.

### Overall Inspection Comments

The following items will need to be upgraded in the upcoming weeks/months/year:

\*Handwashing sink - consider placing a handwashing sink next to existing 3-compartment sink. Sink in bar area to be re-plumbed. Please install soap and single-serve paper towel dispensers adjacent to hand washing area(s).

\*All kitchen equipment to be commercial grade (ANSI or NSF certified). Until new refrigerator arrives, please set up a temperature log for both refrigerators (stand alone and walk-in) and record temps daily.

\*FRP (fiberglass reinforced plastic) or stainless steel installed above ware-washing sink.

\*All wood shelving and cabinetry to be replaced with non-absorbent, durable, easily cleanable material. Begin with food contact surfaces first.

\*Provide hot water to all hand washing sinks, including restrooms.

\*Doors that are left ajar for airflow need to be screened to prevent insects and rodents from entering the facility.

\*Floor coving installed at juncture of floor and wall with a 3/8" minimum radius coving and shall extend at least 4" up the wall.

Please provide Tehama County Environmental Health with an estimated timeline for facility improvements. Thank you.
