Compliance with Green Building Code / Landfill Management Agency

The purpose of the Green Building Code is to improve public health, safety and general welfare by enhancing the design and construction of buildings through the use of building concepts having a positive environmental impact and encouraging sustainable construction practices in the following categories:

- Planning and design
- Energy efficiency
- Water efficiency and conservation
- Material conservation and resource efficiency
- Environmental air quality

The Landfill Management Agency requests permit holders for new construction follow these guidelines to comply with Green Building Code requirements:

1. Complete a Waste Management Pre-Construction Plan.
2. Submit a completed Waste Management Plan Final Report within 30 days after project completion.
3. Demonstrate that at least 50% (by weight or volume, not both) of jobsite debris was diverted from disposal in a landfill by providing receipts and/or gate tags from all facilities and service providers used for recycling, reuse and disposal of jobsite debris.

The Landfill Management Agency will provide free Waste Management Pre-Construction Plan and waste diversion assistance. Please feel free to contact their office at 528-1103 or e-mail at ross@co.tehama.ca.us for further information.
