

# Tehama County Educators Waste Awareness E-Newsletter

## Waste Awareness Through Education

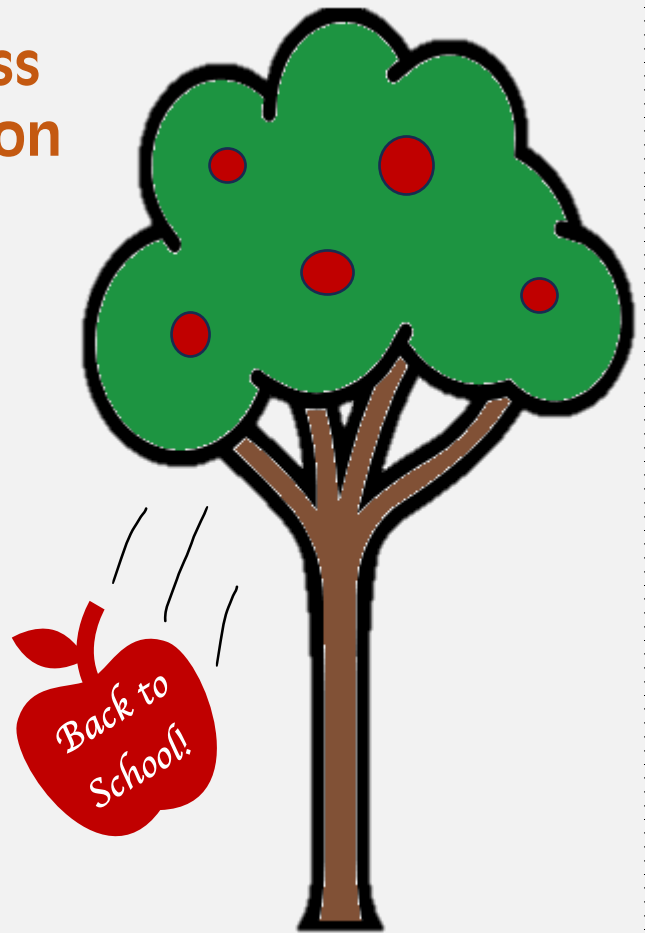

September 2023

There is always so much excitement that a new school year brings. New teacher, new classroom, new friends! There are also so many new things to learn! This month, why not learn about the first two Rs of the 4Rs:

### Reduce and Reuse

*What are some ways you can reduce and reuse waste in your classroom?*

Below is a fun reuse craft that re-uses a cereal box for a scrap book! The Recycling Analyst used her cereal box to make a cookbook with her favorite recipes. See her creation below.

***Did you know cardboard can be recycled 5-7 times? What do you think your cereal box was before?***

### Cereal Box Scrap Book

**Step 1:** Cut out the front and back of a cereal box so you have 2 rectangles.

**Step 2:** Cover with paper and decorate.

**Step 3:** Hole punch the covers and some pieces of paper for the inside.

**Step 4:** Use string or ribbon to tie together to make your book. Use as a journal, photo album, or whatever you'd like!
