

Tehama County Educators Waste Awareness E-Newsletter

Waste Awareness Through Education

January 2024

HAPPY NEW YEAR!

Let 2024 be the year you become Waste Aware, at home and in your classroom. Everywhere we go, we can be waste aware! Start by asking yourself these questions:
How much waste ends up in my trash cart at home?
Where do the classroom trash cans get emptied?
When something is thrown away, where is "away"?

The Waste Awareness Hierarchy is made up of four pillars:
Reduce, Reuse, Recycle, and Rebuy

By recognizing all four pillars, we are able to be more aware of the amount of waste we create, and how we can lessen it! If we all strive to follow the lessons of the pillars, we will minimize how much waste is thrown "away" into the landfill.

What's recyclable at your school?
